By Boston American Leased Wire.

In sentencing the two prisoners, and the negro shrank before the judge's scolding arraignment and presented an appearance of subject cowardly submission in the courtroom. "I don't if it is possible," said Judge Cowing, "in this community a person so devoid of moral qualities as you are. You are a living example of total depravity. You invite young girls into your den and submit them to indignities so heinous that they could not be revealed in a court of justice."

George B. Cortelyou, President's Friend, With Cornelius N. Bliss and George W. Perkins, Charged With Misappropriating Insurance Funds

NEW YORK, March 27.—Goaded to action by Justice O'Sullivan's remarkable charge to the grand jury yesterday, District Attorney Jerome appeared before Magistrate Moss to-day and obtained three warrants for the arrest of three of the principals in the scandal arising from the New York Life Insurance Company's contribution to the McKinley and Roosevelt campaign funds.

Millionaires Are Named.
The three men named in the warrants are George W. Perkins, partner of J. Pierpont Morgan, and former vice-president of the New York Life; Cornelius N. Bliss, treasurer of the Republican National Committee, and Postmaster General Cortelyou, former chairman of the Republican National Committee.

The issuance of the warrants followed a lengthy conference between Magistrate Moss and Mr. Jerome. With the warrants in his possession, Mr. Jerome went back to his office and notified the three men by telephone that warrants had been issued for their arrest. Arrangements were made for them to appear at the Criminal Courts building as early as possible with bondsmen, that bail may be fixed pending a hearing.

Today's action is based upon the claim that contributions which Andrew Harsh ten years ago paid by him to Cornelius N. Bliss and which George W. Perkins and Bliss paid by the New York Life Insurance Company to Mr. Bliss, Andrew Harsh holds a voucher signed by Bliss, A. Harsh, then president of the company. The vouchers, which are not entered upon the books of the company, but was first charged to a "miscellaneous" account and afterward transferred to the profit and loss account of the company.

George W. Perkins, when he first appeared as a witness before the Armstrong grand jury, testified that on March 18, 1902, he had been drawn to the order of J. Pierpont Morgan and given to Cornelius N. Bliss for the Republican campaign fund in 1901. The payment was made by John A. Harsh, then president of the company. The vouchers, which are not entered upon the books of the company, but was first charged to a "miscellaneous" account and afterward transferred to the profit and loss account of the company.

"CONTRIBUTIONS ILLEGAL SHOULD BE FORBIDDEN."

Contributions by insurance corporations for political purposes should be strictly forbidden. Neither legislative officers nor directors should be allowed to use the moneys paid for purposes of insurance in support of political candidates or platforms. The devious methods taken to conceal the payments of this sort are confessions of their illicit character. They illustrate the manner in which the executive officers have treated the funds of the company virtually as their own, abusing their power to disburse them without proper accounting. Whether made for the purpose of supporting political views or with the desire to obtain protection for the corporation, these contributions have been wholly unjustifiable.—from the report of the Armstrong investigation committee's report to the New York Legislature.

INDIANAPOLIS, March 27.—In the morning the motion picture was made by President John Mitchell of the United Mine Workers and was attended by A. H. Wheeler of Ohio, chairman of the operations. There was no decision of any question this morning leading up to the meeting in the afternoon. When asked if there had been any settling of the dispute, the answer was that the matter was still unsettled. The joint scale committee of the Indiana mine miners and operators at 4 o'clock this morning, voted a disagreement. They decided to call the joint conference this afternoon at 2 o'clock.

MINE OWNERS' EFFORT TO HANG INNOCENT MEN?

Will the Criminal Mine Owners' Association Succeed in Swearing Away the Lives of Beave Opponents?

Every citizen in the United States is interested in the case of Moyer and Haywood, now "on trial" in the State of Idaho—a case fully dealt with in our news columns in the last three days.

These two men are labor leaders of the highest standing, of recognized character and integrity. They have been practically kidnapped out of the State of Colorado into Idaho, and they are to be tried for their lives on the sworn "confession" of an alleged accomplice and a confessed murderer named Orchard.

The accusation against the men grows out of the troubles between miners and mine owners that have disturbed Colorado and, to a lesser degree, Idaho, for some time past.

The details of this long struggle would fill all the pages of this newspaper many times over.

These details will be discussed editorially and in the news columns as this case of national interest progresses.

Suffice it now to say that the CAUSE of the trouble was the failure of the State Legislature to pass a law demanded by popular vote and making mandatory a constitutional amendment in favor of the eight-hour day.

Barred violation of law and impertinent insult to the will of the people expressed at the ballot box on the part of mine owners and their servile legislators were at the bottom of the trouble.

Upon this anarchistic overthrow of popular government there followed strikes and violence.

In all cases where PROOF WAS FORTHCOMING it was shown that the violence and MURDER originated with the hired thugs and detectives of the Mine Owners' Association. It is a long and shameful story of piratical capital seeking to rule, regardless of the popular vote. Carroll D. Wright, the President's representative, AND CERTAINLY NOT PREJUDICED ON THE LABOR SIDE, reveals amazing, criminal action on the part of the mine owners. (See pages 189 and 190 of the United States Government report on "Labor Troubles in Colorado," by Carroll D. Wright.)

As a climax comes this Moyer-Haywood case, which we invite the public to consider to-day.

It is a case of NATIONAL IMPORTANCE. It affects the welfare and safety of every man in this land.

It is believed, by those best informed, to represent the effort of criminally organized capital to HANG TWO OR THREE MEN UNDER THE CLOAK OF PROSTITUTED LAW, in order to frighten union men out of the mining districts.

The BOSTON AMERICAN proposes to get at the facts, and we have gone about investigating the matter in the proper, impartial NEWS manner.

We present to-day, on another page, a dispatch from our special correspondent, Clement J. Driscoll, sent to Idaho TO GET FACTS, AND NOTHING ELSE.

Mr. Driscoll is the man who arrested the criminal repeater, Krop, who forfeited five thousand dollars bail, paid by McCellan's bailer thieves. Mr. Driscoll has no interest except to tell THE EXACT TRUTH. He is not a capitalist, and he is not a labor union man. He has no prejudices, no fears. He cares no more for the Governor of Idaho than for the smallest mine laborer, and he is not afraid of any man, Governor, detective, judge or militiaman between the Fourth Ward of New York city, where he was born, and the northwest corner of Alaska.

Mr. Driscoll will follow this case to the end, watching the Governor of Idaho and the hired detectives and perjurers of the mine owners, as he will watch the men interested on the other side.

We find from his investigation:

First—That the general opinion of the West declares the innocence of the accused men.

Second—That the Governor of Idaho, into whose power the labor leaders were brought BY SPECIAL TRAIN PAID FOR BY RAILROADS, positively announces his belief in the accused men's guilt in advance of any trial.

THIS GOVERNOR KNOWS ABSOLUTELY NOTHING ABOUT THE FACTS, except that corporations that make such Governors as he WANT THE MEN CONVICTED AND HANGED.

He professes to accept against honorable men, trusted heads of great unions, the alleged "confession" of a miserable creature who is probably a paid agent of the mine owners, and who ACCUSES HIMSELF OF THIRTY MURDERS, while accusing men of high reputation of a shameful crime.

Mr. Driscoll describes impartially the characters of the accused men and the acts of the mine owners' detectives.

It is a picture as far removed from all ideas of American justice as the scenes in Cuba before the war.

We have printed a temperate review of the case by Joseph Buchanan, a man respected and trusted by American workmen everywhere.

We published last Sunday's BOSTON AMERICAN an analysis of the facts by Robert Hunter.

Statements made in this editorial and in our news columns are further supported by personal investigations of William Hard, formerly of the Chicago Tribune's editorial staff, and now in the administration of Mayor Danne.

We demand that every citizen of character read and consider our report of this case.

It is a case of national and of international importance. It is so grave that the principles involved far exceed in importance even the fate of the workers whose lives are threatened. It is a case of organized capital against HUMAN LIFE AND LIBERTY.

This nation has seen men and women citizens taxed and robbed by organized capital—despite public protest.

It has seen men robbed of their constitutional rights by courts issuing injunctions at the command of corporations owning the courts.

But we HAVE NOT YET SEEN INNOCENT MEN SENT TO THE GALLIWS TO OBLIGE ORGANIZED CAPITAL.

And if that sight IS to be witnessed in America, it will not be because of the failure of the Hearst newspapers to put the facts before millions of American men—men able to prevent such a horrible judicial crime—if MANHOOD IS IN THEM.

The Governor of Idaho, having got these men in his power by illegal means, now disgraces himself and his State by declaring them guilty of murder in advance of any trial.

It is known to what extent the mine owners OWN HIM. And it is known how deeply those mine owners desire the conviction AND THE

HANGING of labor leaders whom they have not been able to conquer in many fashion.

If by any chance the men are guilty—AND WE DO NOT FOR ONE MOMENT BELIEVE THAT THEY ARE—this newspaper will be first to announce the fact, UPON PRESENTATION OF EVIDENCE, and to demand their punishment BY HANGING. For the man who would injure the cause of labor by cowardly murder should be put out of the world. He is the vilest, most dangerous criminal.

On the other hand, these men shall not be railroaded to the gallows on the perjured testimony of any purchased liar and self-confessed murderer. If there is manhood in America to protest, these men, that gave their strength and their fighting courage to defend their fellow-workmen AND THE SACREDNESS OF THE AMERICAN BALLOT, shall not be hanged for a crime of which they are innocent, in order to OBLIGE COWARDLY CORPORATIONS that would suborn perjury and commit "legal" murder in order to cut down the wages of ten thousand workers.

Capital is powerful, and manhood has at times sunk pretty low in America. BUT WE HAVE NOT YET REACHED, let us hope, THE STAGE OF HANGING THE INNOCENT to oblige enthroned capital.

THE SALT SEA WIND

By Ella Wheeler Wilcox.

Copyright, 1906, by American Journal Examiner.

WHEN Venus, mother and maker of bilious,
Rose out of the billows, large-limbed and fair,
She stood on the sands and knew sweet kisses
To the salt sea wind as she dried her hair.

And the salt sea wind was the first to cress her hair,
To praise her beauty and call her sweet;

The first of the whole wide world to possess her—
She, that creature of light and heat.

Though the sea is old with its sorrows and angers,
And the world has forgotten why love was born,

Yet the salt sea wind is full of the languors
That Venus taught on her natal morn.

And now whoever dwells there by the ocean,
And feels the wind on his hair and face,

Is stirred by a subtle and low emotion—
The lingering spell of that first embrace.

Marvellous Rapidity in Newspaper Growth

FROM THE "BOSTON ADVOCATE"

"THE BOSTON AMERICAN is one of giants. They were the biggest ever. The most marvelous newspapers ever known in rapidity of growth. It was established two years ago, and has more than 200,000 circulation daily. It is the Sunday edition, more than 200,000 copies are sold.

This is a record that no newspaper has ever equalled in such brief time since a printing press was known.

It took Mr. Hearst weeks to find a building which would accommodate the press he had ordered for in Boston in Boston.

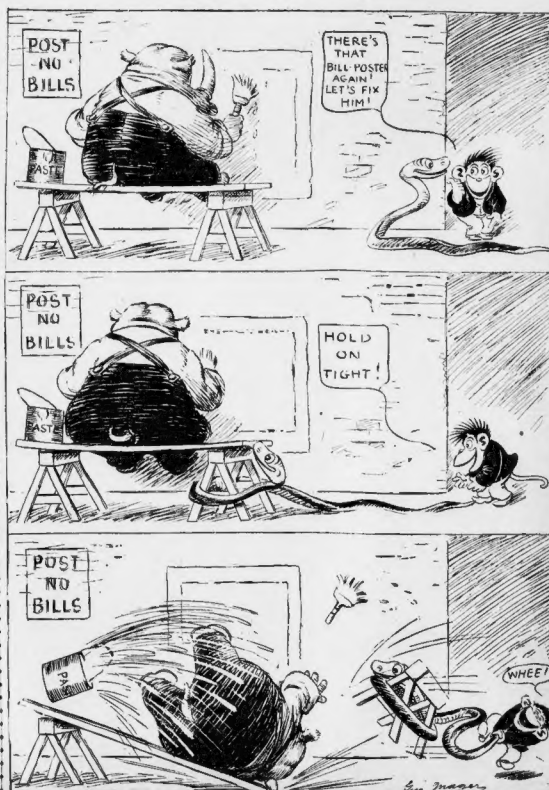

Little Editorials from the People
MEMORIAL BILL POSTERS
EDITOR BOSTON AMERICAN:

I see you lead in all reform, as would like to call your attention to the character of the theatre bill poster. Can't something be done to do away with immoral bill posters?

I have many times noted little children standing before these gruesome pictures fairly over their heads. Do you not think these terrible pictures create a wrong impression upon the minds of little children and contribute to the moral downfall in after years? SICKEN.
